

HISTORIAN MACLAY ATTACKS SCHLEY

Is Called Coward, Liar, Catiff,
Incompetent Subordinate.

SAYS SEC. LONG APPROVED IT

Head of Navy Department Says He
Only Saw Third Chapter—A Very
Pretty Row Raised.

Baltimore, Md., July 19.—Gen. Felix Agnus, publisher of the Baltimore American, has telegraphed the following to President McKinley:

William McKinley, President, Canton, O.—MacLay's history of the navy is the standard in use at the navy academy. In the third volume, just issued, the historian charges Rear Admiral Schley with being a coward, a liar, a catiff, an incompetent subordinate.

In an interview in the American this morning, MacLay, the historian, who is a navy department clerk, classed as a laborer, and attached to the Brooklyn navy yard, says that the proofs of this third volume, which should have told the most glorious story in all our naval annals, were submitted to Secy. Long and Admiral Sampson and approved by them in advance of publication, also that Long put him in his present position after he had read and approved this scurrilous attack upon Admiral Schley. These proofs were also submitted to Admiral Dewey, who refused to read them.

If aught were needed to convince any fair-minded man that a clique in the navy department has conspired to traduce the hero of Santiago, and that the conspiracy was carried into execution while that brave and gallant officer was suffering expatriation on the fever-infested coasts of South Africa, this should furnish it.

Will you, Mr. President, in view of all this, sit quietly by and permit these conspirators to continue their diabolical work? Every justice-loving American appeals to you to intervene in the name and for the sake of fair play. Next to being right all the time, which no man ever was, the best thing is to find out as soon as possible that you are wrong and right yourself immediately.

FELIX AGNUS,
Publisher, Baltimore American.

SECY. LONG'S STATEMENT.

Washington, July 19.—The secretary of the navy has decided that the third volume of MacLay's history of the Spanish-American war shall not be used as a text book at the naval academy unless the obnoxious language it contains in characterizing the action of Rear Admiral Schley is eliminated. The secretary says it would be manifestly improper to have a history containing such intemperate language as a text book for the cadets. He will inform both Commander Vainwright, who is in command of the naval academy, and Mr. MacLay, the author, of his decision.

In this connection the secretary says that the proofs of the third volume were not submitted to him by the historian. He received only the proofs of the third chapter, that relating to the mobilization of the fleets, which he, as secretary of the navy, had issued in making the naval preparations for the war. That chapter was satisfactory and he returned it to Mr. MacLay with an indication of his approval.

He says he never saw the account of the battle of Santiago and the criticisms of Rear Admiral Schley until after the book was published. Mr. MacLay was appointed to his present position in the New York navy yard August 23, 1900, having been transferred from the light house service.

MR. MACLAY'S STATEMENT.

New York, July 19.—Edgar S. MacLay today replied to the criticism which has been made upon his historical works dealing with Admiral Schley and the navy during the Spanish war. He said in part:

"I did not appreciate at the time I wrote the book that the terms were immoderate and intemperate. It is only recently that it has met with adverse criticism. It is now my intention to revise that portion of the work that deals with the battle of Santiago. But I shall not alter the facts, for they are as true as I must first be assured that they are in error."

"The proofs were submitted to the officers who took part in the battle of Santiago, as well as to Secy. Long, and received their approval. I should explain that only those portions of the book were submitted to each officer that related to him personally or to the part he took in the battle. The proofs submitted to Mr. Long dealt with that part of the work that concerned him. I have never had any and wrote it as I did because I believed it to be the truth." MacLay is an employee of the Brooklyn navy yard.

Lynched an Unknown Negro.

Crowley, La., July 19.—An unknown negro was lynched here this afternoon. An officer accosted him to learn his name, when he was fired upon by the negro, who then fled. The negro escaped into the woods, but was caught and taken back to jail, where the crowd captured him and strung him up.

Lightning Kills Four Men.

Grove City, Pa., July 19.—A fierce electrical storm here today resulted in the deaths of four men. Howard Cornelius, Anton Darenka and Michael Zaccaria, Lin Covert and Edward Oack were fatally injured.

ROSEBERY'S LETTER.

He is Convinced Now that He Told the Plain, Unvarnished Truth.

London, July 19.—Speaking at the City Liberal club this afternoon, Lord Rosebery said that his recent manifesto, in which he declared that the liberal party could not exist under the present conditions, has been followed by such an

SOCIETY AND HOUSE- WOMEN AND WIVES

Break Down in Summer--Pe-ru-na Acts as a Tonic to the Deranged Nervous System.

MISS ESTHER G. LOWE, a prominent young society lady of Washington, Ga., writes:

"I took Peruna in early spring, receiving glorious benefits from same. Before taking Peruna I suffered with catarrh, always felt tired and had a dull headache. A friend of mine told me of Peruna. I began taking it at once, gaining each day. I now feel as well as I ever did in all my life. I advise all my suffering friends to give Peruna a fair trial."—Esther G. Lowe.

In Society.

A woman in society is obliged to keep late hours. She must attend receptions and balls. She seldom allows herself a quiet evening at home. Her whole time is taken up in keeping engagements or entertaining in her own home.

Her system becomes completely run down as a consequence. She soon finds herself in a condition known as systemic catarrh. This has also been called catarrhal nervousness.

If every society woman could know the value of Peruna at such a time, they could realize the invigorating, strengthening effect that Peruna would have, how much misery could be avoided.

Letters from society women all over the United States testify to the fact that

extraordinary hula-baloos that he felt

Lord Rosebery said he wrote the manifesto because after the meetings in Queen's hall and at the Reform club, unless some clear repudiation of the statement regarding the war was made, it was impossible for the liberal party to continue to exist as a sound force appealing to the highest sympathies of the country.

On the question of the war, his lordship said his starting point was that, in spite of the Janssen raid, and in spite of the South African committee, the Boers had invaded the dominions of the late queen, and from that moment, although he had criticized the methods of the government, yet, on the main issue, to carry the war to a triumphant close, it would have his warmest support.

Leyds Summoned to The Hague.

New York, July 19.—A dispatch from Paris says: Dr. Leyds, the representative of the Transvaal, has been summoned in haste to The Hague in consequence of the divulgement of the methods of the government, yet, on the main issue, to carry the war to a triumphant close, it would have his warmest support.

TOTRY WIRELESS TELEGRAPHY

Between Tatoosh Island and Neah Bay, Puget Sound.

Portland, Ore., July 19.—Experiments with wireless telegraphy for reporting incoming ships will soon be made between Tatoosh Island and Neah Bay, at the entrance to Puget Sound. At one time the government maintained a station for reporting and observation on the island, but the cable to Neah Bay broke several years ago, and since then vessels have been reported from Neah Bay. The government now proposes to re-establish the Tatoosh station, and to reopen telegraphic communication with the mainland. The experiment with wireless telegraphy fails, a cable will be laid between the island and Neah Bay. Owing to currents and rocks between the island and the mainland, the life of a cable off Cape Flattery is very short, so the government will do its best to make wireless telegraphy a success in order to save the cost of expensive cables. A reserve has been set aside at Tatoosh is-

and, and plans and specifications have been made for a station to cost \$3,000. It is expected that bids will be called for at Washington within a month.

MISSIONARY WORK IN INDIA.

Will Consist of More Practical Work and Less Bible Study.

New York, July 19.—D. C. Churchill sails on the Manitou today on his way to Bombay where he will inaugurate an entirely new system of missionary work in India. Mr. Churchill is an engineer and a graduate of the Massachusetts Institute of Technology. He has been asked to found a system of model trade schools at Ahmednagar, about 175 miles inland from Bombay. Speaking of his mission, Mr. Churchill said the missionaries in the east have decided in favor of more practical instruction and less Bible study as a means to the end they seek.

"The enterprise on which I am bound is supported partly by the government and partly by the contributions of two New York gentlemen, Dr. Huma, a minister of the Congregational church, has collected this money, about \$25,000, and has secured the promise of the government to pay half the salaries of the teachers we may employ. It is through him I received my appointment. The movement, however, is purely denominational. All the missionaries are expected to be interested in its development."

Associated with Mr. Churchill is J. B. Nee, an expert agriculturist. With his aid Mr. Churchill will construct a complete system of irrigation throughout that part of India.

NEGRO SUSPECTS RELEASED.

No Evidence Against Those Accused of Assaulting Miss Davis.

Kansas City, July 19.—Joseph Robertson and "Bull" Holland, the negroes who came near being lynched Friday night last by a mob of 2,000 people on the supposition that they had assaulted Miss Grace Davis, a 20-year-old white girl, and attacked her servant, Vernon Newton, were turned loose today for lack of evidence. Justice of the Peace Ross, in discharging the men, said that little credence could be given the statements of Miss Davis and Newton. On the stand both of them admitted having made misstatements regarding the affair. The negroes set up a strong alibi.

BOER PRISONERS AT ST. HELENA.

They Number Four Thousand Seven Hundred.

GEN. CRONJE VERY WEARY.

But Says Little—Surplus Labor Is Impressed by the Governor for Work on Breakwater.

New York, July 20.—The British steamship Reading, from Ascension and St. Helena, is now at Jersey City.

"There are just 4,700 Boer prisoners on the island," said the Reading's commander, Capt. Fishley, "and of these 17 per cent are Transvaalers and Orange Free Staters. The remaining 83 per cent is made up of other nationalities in this order: Scandinavians, Germans, Italians, a few Russians, Irishmen and even Englishmen, a handful of Scotchmen, a few Americans, a few Greeks and scatters from other nationalities."

"The farmers are complaining because the governor has impressed the surplus labor for work on the breakwater. A large number of the Boer prisoners are also employed on the breakwater at five shillings a day. Some do not choose to work, others labor for the farmers and the older prisoners whittle out toys, which they sell."

"Gen. Cronje is also weary of his detention, but says little. I was told that the proportion of native Boers was representative of their entire army."

ASQUITH AND ROSEBERY.

Liberals Think Former Has Severed Himself from Latter.

New York, July 20.—A dispatch to the Tribune from London says: The general view among the liberals is that Mr. Asquith has severed himself politically from Lord Rosebery and that the situation remains as it was immediately after the Reform club meeting. It is noted as significant that Mr. Asquith deliberately ignored Lord Rosebery's manifesto.

It is rumored that Lord Rosebery intends to conduct a movement in the country in support of his own views, which are to constitute a liberal party on a new and national basis.

Lord Rosebery seems incapable of making himself understood, although he speaks with fluency and writes with lucidity. Whenever he issues a manifesto on the political situation some authorized commentary upon it becomes necessary. His speech at the City Liberal club was designed to elucidate the letter previously sent, but was incomplete and a third explanatory note would not be out of place.

THE BIG DRY DOCK.

It Will Be Transported from Havana to Subig Bay.

New York, July 20.—It is announced that Rear Admiral Bowles, chief constructor of the navy, is taking steps for the transportation of the Spanish dry dock in Havana harbor to Subig bay, island of Luzon. Had it not been for Rear Admiral Bowles' foresight, the dock would within another week have been in the possession of New York capitalists, who had opened negotiations for its purchase and were making final arrangements for the transfer when the navy department stepped in and bought it. The route and the distance the dock would be towed are thus stated by the navy department: Havana to Canary Islands, 3,100 miles; Canary Islands to Gibraltar, 700 miles; Gibraltar to Subig Bay, 1,820 miles; Port Said to Aden, 1,310 miles; Aden to Colombo, 1,130 miles; Colombo to Singapore, 270 miles; Singapore to Manila, 1,366 miles; Manila to Subig bay, 109 miles; total distance towed, 11,916 miles.

GREEKS AND AUSTRIANS FIGHT

Result is One Man Dead and Six Wounded.

Sidney, Neb., July 19.—Greeks and Austrians have met here in deadly combat, and as a result there are six Greeks wounded and one Austrian dead. The Union Pacific has a large force of graders at work west of here, and yesterday being pay day, a large number of them came to town, many of them drinking considerably.

When the drunken men from the two rival camps got into a fight over a certain handicap, each crowd claiming it. The Austrians attacked the Greeks with knives, revolvers and clubs and completely routed them, after severely wounding six of their number. The wounded were taken to the hospital, where four of them now lie.

Rude Lubovic, a member of the Austrian camp, was found dead near the scene of the battle.

As a result of the fight, the Greeks are arming themselves, and a pitched battle is feared.

CUT HIS FRIEND'S EAR OFF.

Austrian Lieutenant Mutilates Caspar Kanyo, Who Suicides.

London, July 20.—"Count Gabriel Kepcezy, a first lieutenant in one of the Hussar regiments," says a dispatch to the Daily Mail from Budapest, "has been formally degraded in Szegelein before the whole regiment. He made a bet that he would cut off the right ear of his best friend, Caspar Kanyo, with his sabre. He then approached the unsuspecting Kanyo and slashed off his ear."

"Kanyo shot at Kepcezy with his revolver, but missed him. Then, turning to the mirror and seeing himself without the ear, he turned his revolver against himself and fell dead. The colonel, in degrading Kepcezy, warned the officers of the regiment against debauchery and drunkenness."

SCHLATTER NOT INSANE.

Will Be Arraigned on a Charge of Vagrancy.

Washington, July 19.—The man claiming to be Francis Schlatter, and representing himself to be a divine healer, who yesterday arrived in this city, today was examined by physicians to determine his sanity. They reached the conclusion that he is not a proper subject for an asylum, and he will be arraigned in court on the charge of vagrancy.

RUSSIA FINDS FAVOR IN THIBET.

Lalai Lama Sends Special Mission to St. Petersburg.

DEEMED VERY IMPORTANT.

Marks Another Step in Extension of Russian Influence Towards French Indo-Chinese Possessions.

St. Petersburg, July 20.—(Correspondence of the Associated Press.)—A Baikal from Transbaikalia, named Akoharambo Aleewan Dorschieff, who has gained the favor of the dalai lama of Thibet, came to Livadia last October and was received by the emperor. He returned to Thibet and succeeded in persuading the dalai lama to send a special mission to St. Petersburg to open friendly relations with this country. This mission has arrived under the guidance of Dorshieff and has been received by Count Lamsdorff. It consists of four persons, one of whom is the dalai lama's second secretary.

It brings an autograph letter from the regent of Thibet to the czar. The Russian newspapers attach much importance to this journey. It marks another step in the extension of Russian influence towards the Indo-Chinese possessions of France.

The Russians regard the establishment of a chain of communications across the rear of the Indian empire and the permanent isolation of India from the Yang Tse Kiang valley as practically assured. The Novoye Vremya regards the sending of this mission as proof that the power of Russia in Manchuria has penetrated to Thibet and there is no reason to doubt that active communications are maintained between Urga, in Mongolia where another dalai lama sits as regent. This journal thinks it only natural that Thibet should seek in Russia a protector against the "greed of England," or outlying territories of China should turn their faces towards the "white czar." A good part of this and much more of the same sort in other papers is, no doubt, written for the Thibetan visitors.

It is reported Prince Ferdinand of Bulgaria, the Bulgarian minister, and the president of the sobor will come to St. Petersburg in the autumn to present the emperor with a bronze medal of the monument of the Emperor Alexander II, which was recently unveiled at Sofia.

The Russian press, as a whole, has recently displayed much more moderation and benevolence in its treatment of the Finnish question than at any time since certain elements in Russia conjured up the spectre of Finnish separatism. It is no secret that the views of the highest circles in Russia have undergone a change in regard to Finland. The emperor and the empire no longer ago defeated the project to Russinize the Finnish army which was, as will be remembered, the occasion for the whole hubbub. It was noted as significant about the same time that the Grafshain was pardoned all its offenses against the press law soon after it published a warm and sympathetic article defending the Finns from charges of disloyalty. While there is no reason to believe there will be a restoration of Finnish liberties, probably the policy of antagonizing this peaceful and cultivated people will not be pursued further. The police are naturally the last to become reconciled to the new turn of things and disagreeable tilt with the opposition party—in Finland the opposition are known as the patriots—are still reported occasionally.

To Preserve, Purify, and Beautify the Skin, Hands, and Hair Nothing Equals

Cuticura SOAP

MILLIONS of WOMEN Use CUTICURA SOAP, assisted by Cuticura Ointment, the great skin cure, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative antiseptic purposes which fully suggest themselves to women, especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used these great skin curatives to use any others. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humour, Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA OINTMENT, to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood.
